Micro-Savings App with Goal Tracking

System Architecture

USER (INDIVIDUAL)

- Add Expense
- View Expenses
- Set Budget
- Set Savings Goal
- View Insights

USER INTERFACE (Console Based)

- Menu Driven Interface
- Input Validation
- User Friendly Options
- Display Results

CORE MODULES

- Expense Management
- Budget Management
- Savings Goal Management
- Monthly Tracking
- Category Management
- Insight Generation

OUTPUT / INSIGHTS

- Total Expenses
- Category-wise Analysis
- Monthly Spending
- Budget vs Expense
- Savings Goal Progress
- Smart Insights

POWER BI DASHBOARD

- Visual Analytics
- Interactive Dashboard
- Charts & Graphs
- Trend Analysis
- Goal Progress
- Export Reports

BACKEND (CORE JAVA)

Authentication Module
- Simple User Validation

Expense Management Module
- Add Expense
- View / Edit
- Delete Expense

Category Management Module
- Add Category
- View Categories

Budget Management Module
- Set Budget
- Compare Budget with Expense

Savings Goal Management Module
- Set Savings Goal
- Track Progress
- Goal Status

Monthly Tracking Module
- Track Monthly Expenses
- Monthly Summary

Insight Engine Module
- Highest Spending Category
- Spending Pattern
- Smart Insights

File Handling Module
- Read / Write Data
- File Management

DATA STORAGE (FILE SYSTEM)

expenses.txt	budget.txt	savings_goal.txt	categories.txt	monthly_data.txt
All Expenses Data	Budget Information	Savings Goal Information	Category Information	Monthly Summary Data

ANALYTICS & DASHBOARD (POWER BI)

Total Expenses	Monthly Spending	Category-wise Spending	Budget vs Expense	Savings Goal Progress	Spending Insights
Overall Spending Summary	Month-wise Expense Trend	Spending by Category	Compare Budget with Actual	Goal Completion Status	Smart Insights & Recommendations

EXTERNAL INTEGRATIONS (Optional / Future Scope)

Email Service	Export to CSV	Cloud Storage	Database (Future)
Send Reports / Reminders	Export Data for Backup	Store Data in Cloud (Future)	MySQL Integration

FUTURE ENHANCEMENT

Database Integration	Mobile App Version	AI Based Insights	Multi-user Support	Online Sync
MySQL / SQLite Integration	Android App Development	AI Prediction & Smart Suggestions	Multiple User Management	Real-time Data Synchronization
